SUMMARY

I am a B.Tech student specializing in Artificial Intelligence and machine language having hands-on experience in full-stack web development and AI integration. Proficient in building responsive React applications, RESTful APIs, and database management with PostgreSQL. Demonstrated ability to implement machine learning models in production environments and deploy scalable web solutions. Seeking opportunities to contribute to innovative projects while expanding technical expertise in a collaborative team environment.

SKILLS

Languages HTML5,CSS, JavaScript ,Python,
Frameworks React.js, Node.js, Express.js, Tailwind CSS,
Databases PostgreSQL, MongoDB (Basic)
Tools & Platforms Git, GitHub, REST APIs, Netlify, Vercel
Other Skills Responsive Design, AI/ML Integration, Problem Solving

TECHNICAL PROJECTS

Jabalpur Stays 2025

React, Express.js, Node.js, PostgreSQL

- Engineered a full-stack hotel management platform featuring real-time booking functionality, property listings, and reservation management
- Implemented secure user authentication and role-based admin dashboard for hotel operations
- Designed responsive UI components and optimized database queries for efficient data retrieval

Smart Inbox Guard 2026

React, Node.js, Python, Machine Learning

- Developed an AI-powered email security system utilizing Python ML algorithms for spam and phishing detection
- Integrated TensorFlow/scikit-learn models with Node.js backend to provide real-time email classification via RESTful API
- Built intuitive React dashboard for threat monitoring and security analytics with dynamic data visualization

WeatherApp 2024

React, OpenWeather API, RESTful Integration

- Designed a glassmorphism-style weather dashboard consuming OpenWeather API for real-time meteorological data
- Implemented dynamic background transitions based on weather conditions and responsive layouts for mobile/desktop
- Managed complex state handling for location search, data caching, and error boundaries

EDUCATION

Bachelor of Technology in Computer Science 2024- 2028

Shree Ram Institute of Science and Technology, Jabalpur

- Relevant Coursework: Data Structures & Algorithms, Web Development, Database Management Systems, Software Engineering

Senior Secondary Education (12th) 2023

Small Wonder Senior Secondary School, Jabalpur

- Completed higher secondary education with focus on Physics, Chemistry, and Mathematics

ACHIVEMENTS

Practical competition experience — built production features under deadlines and collaborated in teams

- Continuously learning applied ML techniques and productionizing prototypes
- Open to mentorship, code reviews, and collaborative projects
